

Luba Ramashka

HTML Developer

Hi, my name is Luba and I am an HTML developer from Minsk. I develop web and mobile applications of any complexity.

I use React as my main tool.

In the past I was working as a fashion designer and design engineer for 13 years.

I am hardworking, well-learning, excellent teamworker and can find common ground with different people. I am motivated person, that wants to gain experience and be useful.

I will be glad to be a part of your team.
